Flees Czech Prison

Communists Lose Young American

WASHINGTON, Aug. 8 (AP) — A young American jailed as a spy in Communist Czechoslovakia was officially reported today to have escaped.

The state department said the man is John Hvasta, 25, of Hillside, N.J.

Officials said the Czechoslovak government told the department that Hvasta flew from prison last Jan. 2 and Czech authorities do not know where he is.

Hvasta was under a 10-year sentence on a charge of espionage. The United States government had been pressing the Czechs for his release and for the release of Associated Press correspondent William N. Oatis, sent to prison on a spy conviction 13 months ago.

The state department said it had made several demands respecting Hvasta since the date of his reported escape but had received no response from the Czechoslovak foreign ministry until about three days ago. The Czech Foreign Office finally advised the U.S. Embassy it no longer knew where Hvasta was.

This development came after an anti-Communist group in London, "The Free Czechoslovak Information Service," had carried June 27 an article stating that Hvasta had escaped from Leopoldov prison near Bratislava Jan. 2.

RUMORS SPIKED

Lorino Still With Tyees, Boss States

Rumors that pitcher Ben Lorino of the Tyees had quit the club were denied today by general manager Reg Patterson.

"As far as I'm concerned," said Patterson, "Lorino never has left the team."

Reports were circulated Thursday night that Lorino, who was not in uniform, had jumped the team because of his disappointment in not winning his 20th game against Yakima Bears, Wednesday, when the Tyees lost 25-4.

However, another W.L. pitcher has quit. John Paul Jones of the Vancouver Caps was reliably reported as having left for home. Jones was recently suspended by the Caps for insubordination. His suspension was up today.

Captain Says Ship Changed Its Course

SEATTLE, Aug. 8 (AP) — Coast hearings into the collision of Alaska Steamships' Baranof and the Greek freighter Triton adjourned Thursday after testimony from the Baranof's captain and radio operator.

Capt. Joseph Ramsauer was below July 26 when the two ships collided in Georgia Strait with the loss of two lives.

The pilot, Capt. Ernest J. Landstrom, told Wednesday how he maneuvered the Baranof to avoid collision. He changed course five times to dodge the Triton, Capt. Landstrom told investigators.

The Baranof gave no whistle signals, crew members said, and the Triton whistled only at the last moment before the Baranof plowed into her starboard side, sunk in the night action.

SATURDAY'S MAGAZINE

London's Young Gangsters Problem 200 Years Ago

While more may be written about juvenile delinquency now than at any other time, the youthful gangsters of London 200 years ago, were a greater problem than any of those of today, Peter Eliot discloses in his weekly magazine section article in the Victoria Daily Times tomorrow.

London's Mudlarks they were called. Their ages ranged from 19 down to six. Many of them had closely cropped hair, the sign of a recent prison release. They were proud of their jail terms and among some gangsters with 20 convictions was treated as a hero.

Cecil Solly in his gardening article points out September is the month to ready new lawns.

The theatre page carries a story about Robert Whitford's revolutionary method of teaching children to play the piano. He stresses tunes in preferences to exercises. Parlor playing should be the objective except when a pupil shows such talent that he may make a piano career, he says.

HAMILTON SUES CITY

VANCOUVER, Aug. 8 (CP) — The City of Victoria is being sued in Supreme Court here by Charles T. Hamilton for \$3,212.

The claim is alleged to be the balance due for engineering services in connection with the construction of Memorial Arena.

H.M.S. Sheffield steams toward Victoria for seven-day visit.

WARM WELCOME

British Warship Visits 7 Days

By MONTE ROBERTS
Times Marine Editor

A gleaming-grey cruiser today eased her way slowly toward Esquimalt harbor and a warm welcome from the Pacific Command, Royal Canadian Navy, and citizens of Victoria.

H.M.S. Sheffield, visiting flagship of the America and West Indies station, was to be greeted by the first salute to a senior flag to be fired from the new saluting battery of 12-pounders atop Black Rock, in H.M.C. Dockyard.

From her forecastle truck flew the flag of Vice-Admiral Sir William Andrewes, K.B.E., C.B., D.S.O., commander-in-chief, America and West Indies Station.

Inside Esquimalt harbor, a traditional naval welcome awaited her, with pipes twittering from Canadian ships in port before she berthed at the new jetty-first "Her Majesty's Ship" to visit Canada during the reign of Elizabeth II.

Sheffield, commanded by Commodore J. G. T. Inglis, left Seattle at 9 this morning, and is here for a seven-day visit before

proceeding to Vancouver. She was in Victoria once before, in 1948, and is a 16-year veteran of naval action and shore bombardments. Sheffield wears more battle honors than any other ship of her type.

Vice-Admiral Andrews has seen 37 years of naval service. He went to sea in 1915 as a midshipman in H.M.S. Canada, in the Grand Fleet, and was present at the battle of Jutland.

Later he served in destroyers, and was in the Baltic in 1919. He specialized in torpedoes in 1923, became Fleet Torpedo Officer, China fleet, in 1930.

At the outbreak of the Second World War, Admiral Andrews was in command of H.M.S. Albatross, and left her in 1940 to become a member of the joint planning staff. From 1942 to 1943 he commanded H.M.S. Uganda (now H.M.C.S. Quebec) in the Atlantic, and was mentioned in despatches for his part in the invasion of Sicily.

For his services in the invasion of Italy, he was made a Companion of the Distinguished Service Order.

Sheffield, commanded by Commodore J. G. T. Inglis, left Seattle at 9 this morning, and is here for a seven-day visit before

Commanded British Carrier

He became chief staff officer for the administration of invasion forces in the Normandy landings, and was made a commander of the military division of the Order of the British Empire. In 1946 he commanded the aircraft carrier Indomitable.

He has served as Aide de Camp to His Majesty the King, senior naval member of the Imperial Defense College directing staff, and commander of the Fifth Cruiser Squadron.

On the outbreak of the Korean War he assumed command of the British, Commonwealth, French and Dutch ships taking part, and his command later included 80 U.S. Navy units.

He was knighted for these services, and promoted to vice-admiral in 1950. He has been in command of the Defense College directing staff, and commander of the Fifth Cruiser Squadron.

Arrangements have been made to take officers and crew on tours of Victoria and up-island points, and many citizens in Victoria have invited members of the ship's company to visit their homes.

Father Faces Court Charges In Slaying

KAMLOOPS, B.C., Aug. 8 (CP) — Kosaburo Masuda, 56-year-old handyman, today was charged with murder in the bedroom shotgun slaying of his 17-year-old daughter, Mrs. Lily Bing.

Police arrested Kosaburo Masuda on a street corner four blocks from the dead woman's home after a running gun battle in which the Japanese allegedly fired three shots at pursuing Royal Canadian Mounted Police.

The dead woman — 17-year-old Mrs. Johnny Bing — was slain by three shotgun blasts fired through the window of her home.

When overpowered, Masuda was disarmed of a shotgun, an axe, a bowie knife and a homemade firebomb.

During the battle, a plate-glass window in a store was shattered. Police also said the taxi cab of the victim's Chinese husband was punctured by a blast of shotgun pellets.

No motive was given for the slaying.

While more may be written about juvenile delinquency now than at any other time, the youthful gangsters of London 200 years ago, were a greater problem than any of those of today, Peter Eliot discloses in his weekly magazine section article in the Victoria Daily Times tomorrow.

London's Mudlarks they were called. Their ages ranged from 19 down to six. Many of them had closely cropped hair, the sign of a recent prison release.

They were proud of their jail terms and among some gangsters with 20 convictions was treated as a hero.

Cecil Solly in his gardening article points out September is the month to ready new lawns.

The theatre page carries a story about Robert Whitford's revolutionary method of teaching children to play the piano. He stresses tunes in preferences to exercises. Parlor playing should be the objective except when a pupil shows such talent that he may make a piano career, he says.

VICE-ADMIRAL SIR WILLIAM ANDREWES

COMMODORE J. G. T. INGLIS

He was appointed to his present command last May.

The Southampton class cruiser will be open to the public on Saturday and Sunday afternoons. Visitors will be permitted to enter through the main gate at H.M.C. Dockyard, at the western end of Esquimalt Road.

Arrangements have been made to take officers and crew on tours of Victoria and up-island points, and many citizens in Victoria have invited members of the ship's company to visit their homes.

He became chief staff officer for the administration of invasion forces in the Normandy landings, and was made a commander of the military division of the Order of the British Empire. In 1946 he commanded the aircraft carrier Indomitable.

He has served as Aide de Camp to His Majesty the King, senior naval member of the Imperial Defense College directing staff, and commander of the Fifth Cruiser Squadron.

On the outbreak of the Korean War he assumed command of the British, Commonwealth, French and Dutch ships taking part, and his command later included 80 U.S. Navy units.

He was knighted for these services, and promoted to vice-admiral in 1950. He has been in command of the Defense College directing staff, and commander of the Fifth Cruiser Squadron.

British Atomic Bomb Test Believed Near

Ships, Planes Warned Off Large Area Of Islands Close to Western Australia

MELBOURNE, Australia, Aug. 8 (Reuters)—Shipping and planes today were warned off an area of 23,500 square miles encircling the uninhabited Monte Bello Islands, 12 miles off Western Australia, where Britain's first atomic explosion is to be staged.

No official date has been set for the explosion beyond the fact it will take place "sometime this year." Today's announcement indicates the stage is set for the test.

The British aircraft carrier Campania, believed to be carrying Britain's first atomic weapon, sailed from Perth, Western Australia, last Tuesday. She is the flagship of the 11 ships in the "atom fleet."

The warning announcement, issued jointly in Australia and Britain by naval authorities, said the testing area "is declared dangerous to aircraft and shipping until further notice." It said all possible precautions will be taken to ensure that no hazard to life

Bulgaria Protests Border Incidents To United Nations

LONDON, Aug. 8 (Reuters)—Bulgaria has sent a letter to the United Nations secretariat protesting against a number of frontier incidents said to have occurred on the Greek-Bulgarian frontier between July 26 and Aug. 7, the Bulgarian News Agency said in a report broadcast from Sofia today.

The protest said that Thursday large Greek units opened fire on Bulgarian territory southeast of the village of Kapitan Andreev, which is near the disputed island of Gamma in the frontier-forming Evros River.

The protest alleged Greek tanks and troop movements along the frontiers, the count for cash Thursday by river and also complained that a committee of City Council, Bulgarian frontier guard was killed and several wounded in an incident July 26.

Wafdist Leader in New Blast Against Britain

CAIRO, Aug. 8 (Reuters)—The government today considered a bill to regulate political parties as Wafdist leader Mustafa Nahas issued a new firebrand declaration against British occupation of the Suez Canal zone.

The government's bill follows complaints of dictatorship by party leaders and "ignorance in which members are kept on the financial position," a spokesman said.

Ignoring dissension within his party, Nahas said the prime aim of the Wafdist, largest political force in Egypt, is to purge the country of occupation forces and unite Egypt with the Sudan.

He said the Wafdist would have succeeded last winter "but for the wicked conspirators who burned Cairo and ousted the Wafdist from power."

Nahas, prime minister at the time of the violent guerrilla campaign against Britain which cul-

8878 Galla Roma (Ventrella) 109

8894 Prince Harry (Anderson) 113

8876 Vito (Zeffert) 114

8870 El Ricard (Williams) 110

Also eligible:

8826 Goldilocks (Anderson) 115

8821 Ethel Valley (Coppernoll) 113

8802 Count Gallo (Anderson) 113

8802 Goldie (Burgen) 113

Weather clear, track fast. First post Saturday, 2:30.

Canadian Field Squadron, Royal Canadian Engineers. The awards, to be presented to the officers by Defense Minister Brooke Claxton, were announced last May.

BRILLIANT — In Ottawa a brilliant young chemist who rose swiftly in the army in the last war today was named secretary of the Defense Research Board, the scientific arm of the defense department.

He is Dr. John Cameron Clunie, 34, of Sarnia, Ont., a former Rhodes Scholar who became a lieutenant-colonel at 26 and a colonel at 27, then went to Oxford University to gain three degrees.

Dr. Clunie joined the research board a year ago. As secretary, he succeeds W. H. Barton of Ottawa, who has been seconded to the department of external affairs.

FRIDAY, AUG. 8, 1952

3 City Mills, Strikers Stalemated After Collapse of Negotiations

Negotiations between the International Woodworkers of America and two Victoria-millwork plants on wages to be paid factory workers, collapsed Thursday and show no signs of early resumption.

As a result, the millwork plant at Moore-Whittington Lumber Co. Ltd. and the whole of Crowe-Gonnason Ltd. are still strike-bound and picketed.

Single point of disagreement was the time of opening of an agreed wage schedule.

Operators asked that wage rates be the same as those in the 1951 contract, and that Chief Justice Gordon Sloan be asked to mediate as soon as the new B.C. woodworkers, millworkers, and sash and door men's rates, now being negotiated in Vancouver, are known.

The union, however, said it was prepared to sign an agreement with a re-opening clause similar to that of the Sloan formula for settling the woodworkers' strike, which calls for reopening of contracts in about four months.

"This local is not prepared to deviate from the 'coast agreement,' said Jack Mackenzie, union president here. He added that should the dispute continue, substantial assistance will be given to his first term.

He said he didn't seek re-election but "I have to surrender my personal desires and obey the mandate of the people."

"It has not been an easy task the last four years, I do not believe it will be an easier task in the coming four years."

forthcoming from the district council of the I.W.A. and other locals.

Proposals made by the companies and accepted by the union were: agreement with the basic wage rate in the Sloan formula; three paid statutory holidays; and all men to return to work immediately.

Canadian Highlanders

Participate in Tattoo

EDINBURGH, Aug. 8 (CP). —

A pipe band of the 1st Canadian Highlanders arrived Thursday from Germany to take part in a military tattoo staged in conjunction with the Edinburgh festival.

The band is under direction of Pipe-Major Keith Lee of Toronto.

FRIDAY, AUG. 8, 1952

The Test of Mr. Bennett

PREMIER BENNETT, WE BELIEVE, would be quite wrong if he refused to meet the legislature before next year. A minority government, precariously and accidentally in office, should test without delay its control of the legislature. It is reported—we hope erroneously—that Mr. Bennett has decided to defy this constitutional requirement, he has placed the two major departments of government under gentlemen who have not been elected by the people and it is said that he does not intend to let the people speak through their legislature, until some time in 1953.

No one can compel Mr. Bennett to do otherwise. But we think that in this respect he would make a very bad beginning.

His government, however, will have plenty of time to consider the affairs of British Columbia before acting on them. It should be able to devise an actual policy to replace the generalities and contradictions of its election campaign.

Its policy must centre on the budget. In the campaign the only clear proposal of the Social Credit party was economy in governmental spending. It attempted, and with considerable success, to establish itself in the public mind as the only party which believed in holding down expenditures and taxes. In this respect, of course, it was greatly assisted by the other parties, all of which have

co-operated in making British Columbia the largest per capita spender and the heaviest tax collector in Canadian history.

The real question now is whether the Social Credit government believes in economy, whether the exhortation of the campaign will be followed by action in the next budget. Mr. Bennett has long been fond of attacking the extravagance of the former coalition government. Now he has the chance to do something about it. His party has bitterly condemned the increase in provincial debt and is committed to the maintenance of public services with a minimum of borrowings. The next budget will show whether this was actual policy or campaign oratory.

The first measurement of the Bennett government's capacity and its sincerity will be the total expenditures of the next budget and the tax rates necessary to support them. Having so often attacked the rising expenditures of the coalition government, we hope that Mr. Bennett will be able to reduce them or at least half their rapid increase. The new minister of finance, Mr. Gunderson, apparently is to have at least six months to prepare his first budget. He cannot say he has been rushed and he will have ample opportunity to prove that Social Credit (whatever it may mean in its larger and more mysterious fiscal theories) does believe in economy and intends to enforce it.

A Hook for the Fish

THE RECENT SASKATCHEWAN C.C.F. convention at Saskatoon, like some other provincial and federal gatherings of that party, seems to have fallen for a Red propaganda move that must lead to embarrassing results.

The assembled delegates came up with a resolution that would brand as war-mongers any nation that used or even contemplated using bacteriological, chemical, napalm, hydrogen and atomic weapons.

That is a laudable sentiment on straight humanitarian grounds. But the humanitarian must, unfortunately, be closely wedded with the practical in this day and age, even more than in the days when men were exhorted to "trust in God and keep your powder dry."

It takes little thought to grasp the deeper significance of the C.C.F. resolution. It would mean that the democracies would be forced to relinquish the weapons that help them to match the immense manpower, resources and armament of Russia. Most of the free world long ago accepted the Churchillian doctrine that the west's possession of the atomic bomb is the strongest deterrent to Soviet expansion by force. The bomb threat—it's retention in reserve as a defensive measure—has served, and is serving as a safeguard while other western arms, reduced following the war, are brought back to levels promising greater security.

Soviet possession of the bomb offsets this to some degree. But while the power to inflict terrible damage, perhaps fatal damage, rests with the democracies

the risk of war is to that extent diminished.

Bacteriological warfare, of course, is viewed with distaste by any decent person. But apart from Communist accusations, there is no indication that western nations have ever contemplated its use except as a threat of retaliation. The napalm weapon—the jellied gasoline bomb that spreads liquid fire over a target—is likewise an unpleasant mode of battle. But Korean fighting has proved it to be almost the only effective weapon against massed tanks and troops fortified in underground strongpoints. It matters little to the fallen soldier in what exact manner he died. From pistol bullet to atomic bomb, all death-dealing weapons are sorrowful evidence of modern man's insecutivity.

The C.C.F. intention no doubt was good. But the resolution stopped short of the goal. Along with napalm and atomic bombs, it should have forbidden huge massed armies, massed tanks, submarine fleets, field artillery, aerial bombing and bayonets. In short it should have forbidden war, for war is a greater crime than the weapons with which it is fought.

Who is to evaluate the evils of atomic bombs and older forms of waging-war? A bomb may kill, wound and destroy. But it does not in addition rape and loot, as invading armies have since time immemorial; it does not imprison and torture; it does not indoctrinate and subvert.

All armaments are the enemies of mankind, not just those of one side. The C.C.F. convention was slyly offered a bait, and it snapped it up.

Alberta and B.C.

AS MR. MANNING SAYS, THE ALBERTA election went exactly according to expectations. It re-elected a well-established Social Credit government but of course it did nothing to establish the theories of Social Credit. The original Aberhart promises of a new economic system, the \$25 monthly dividend and the rest now belong to the ages.

Alberta has the kind of government it desires, a right-wing government, conservative in everything but name, and it also has the kind of prosperity it desires, thanks to abundant natural resources, which the government apparently is administering satisfactorily.

It is regrettable, however, that no party has been able to erect an effective opposition, which every government needs. There is no comfort in the recent election for the Liberals, Conservatives or the C.C.F. All of them remain tiny splinters in the legislature and the government will continue to face no

adequate criticism. This is bad for any community and any government.

In that respect the situations in Alberta and British Columbia differ sharply. We also have a Social Credit government here but it is a minority in the legislature and in the country, and it faces an opposition which, by combining, can destroy it at any moment.

Nevertheless, the old parties of British Columbia can see from the experience of Alberta that it is possible for them to decline into something like impotence if they fall, as they have failed in Alberta, to offer any clear alternative to the new parties. That fact should be faced. For the political health of both the far western provinces it is essential that the opposition parties should be rebuilt from the grass roots with new leaders and new policies. Otherwise they can disappear altogether as a significant force in politics.

Politics and Prices

PRESIDENT TRUMAN, MASTER OF politics but amateur in economics, blames Congress for whittling his power to control prices and the appropriations for his price-control machinery. Here speaks the politician, not the economist. For the President himself, in the recent steel strike settlement, effectively scuttled the fiction of direct price control.

By his insistence the wages of the steel workers were raised and by his authority the price of steel was raised, at a direct cost to the average American family of about \$100 a year and an indirect cost quite incalculable. The President himself, while attacking Congress for damaging his price-control machinery, has started another wage-price spiral at the very moment when the cost of living has reached an all-time peak.

This sort of thing is to be expected in an election year when political manoeuvre leaves little time for sober economic thought. The President, in short, is putting the best possible face on things, until the polls close and he doubtless hopes that the cost of living will not rise much before then.

When the polls have closed, however, when a new administration is in office, it must face the fact that the official

calculations of last spring as usual have proved wrong. The deflation then feared has turned into another installment of inflation, as yet mild but alarming in its possibilities. It will be for the new administration to pick up the pieces left by the obvious failure of the direct price control method and the determination of the present administration to keep an inflationary boom going until the votes are counted.

In all this confusion one fact at least is clear—Canada made no mistake in refusing to embark on direct price control which, inevitably, fails to work. Our government, however, apparently did follow the mistake of the Washington experts who believed last spring that the danger of inflation had passed, that the real danger was deflation.

Ottawa probably did not foresee then the inflationary fiscal policies quietly launched by the American government and certainly it did not foresee the sharp round of wage increases which must force up prices in both countries.

The consumer throughout America is now paying for mistakes in the economists' calculations but has yet to pay for the wage increases in the American steel industry and in many other industries on both sides of the border.

BOB RUARK SAYS

They'd Be Safer Locked Up

NEW YORK.—The Veterans' Administration promptly leaped off the hook on charges that they turned a mad killer named Bayard Peakes loose when he was a proven psychopath and unfit to manage his affairs, because there is no provision under the law for the detention of discharged veterans with dangerous bats in their belfries. Yet Peakes was diagnosed as insane at the time of his discharge, and received a partial pension.

If this loophole in the law of legal confinement has always applied, then the V.A. has shirked a responsibility to its veterans that is even more shocking in many respects than a refusal to care for a man who has been physically maimed in the service of his country. A man draws postwar hospitalization for service-incurred physical injury.

AND IT makes no difference if the seeds of the injury were sown before the man was taken into the service. Once in, he is the government's baby, which is why they are so careful about physical examinations. They do not want to assume expensive proprietorship for defects or injuries which make the government legally responsible for the man's welfare after his discharge.

But there were thousands of discharges for mental reasons, and there was wartime hospitalization for men with service-developed insanities. The transport on which I once served in the last war had a large mental ward, which was generally crammed on return trips with boys who had slipped a mental cog. On my ship at least, a good percentage of the returnees could be classified as both violent and dangerous.

SOME of these men, like Peakes, had histories of mental disorder before they really stepped off the precipice of insanity, but they were nonetheless charges of the government, because they had been accepted by the government as competent to fight a war. Whether they were potential mental cases or not, if their state had achieved a seriousness sufficient to warrant a discharge, they were entitled to postwar care and careful supervision.

The difference between a soldier with physical disability, who qualifies for care, and the soldier with a mental disability, in which the V.A. says he does not qualify for postwar care, is that the physically wounded man is not nearly so apt to go courting around killing strangers over real or fancied injustice.

THERE is no telling how many crimes of sudden violence, committed since the war, might have been averted by careful diagnosis on discharge and a commitment to an institution. Even some sort of follow-up on the patients after discharge might have cut the incidence.

Judge Saul Streit of New York was understandably bitter in his castigation of the V.A. for its failure to make an effort to treat Peakes, whose files show repeated reports labelling him as dangerously insane. His senseless murder of an innocent girl was merely the final fruition of a tendency toward aimless violence which seems to have been present in the man since his adolescence. While there is no measurable way of controlling the mad impulses of even a large percentage of psychopaths, apart from permanent confinement, in the case of Peakes at least the murder of Eileen Fahey would have been prevented.

JUDGE STREIT, one of the more practical jurists, also took a sweeping crack at civilian administration of mental cases, by which men of deep-rooted violent tendencies are blithely pronounced cured and turned loose to chop up the first innocent who crosses their warped mental path. Judge Streit claims that no institution is justified in discharging a patient with a tendency toward violence without exhaustive psychiatric tests and a final court action.

THE judge's stern summation is happily put. It has been a quiet claim of mine for quite a few years that the death of one innocent's heirs, is worth more than the inconvenience and unhappiness of one permanently incarcerated mental case with the potential of killing in him. In case of doubt, the odds should favor the victim over the culprit, and the only answer is to lock 'em away. Treat 'em kindly, but shut 'em up, where the temptation to rape and slay and pervert is minimized by the presence of bars.

An Eastern View

Toronto Globe and Mail

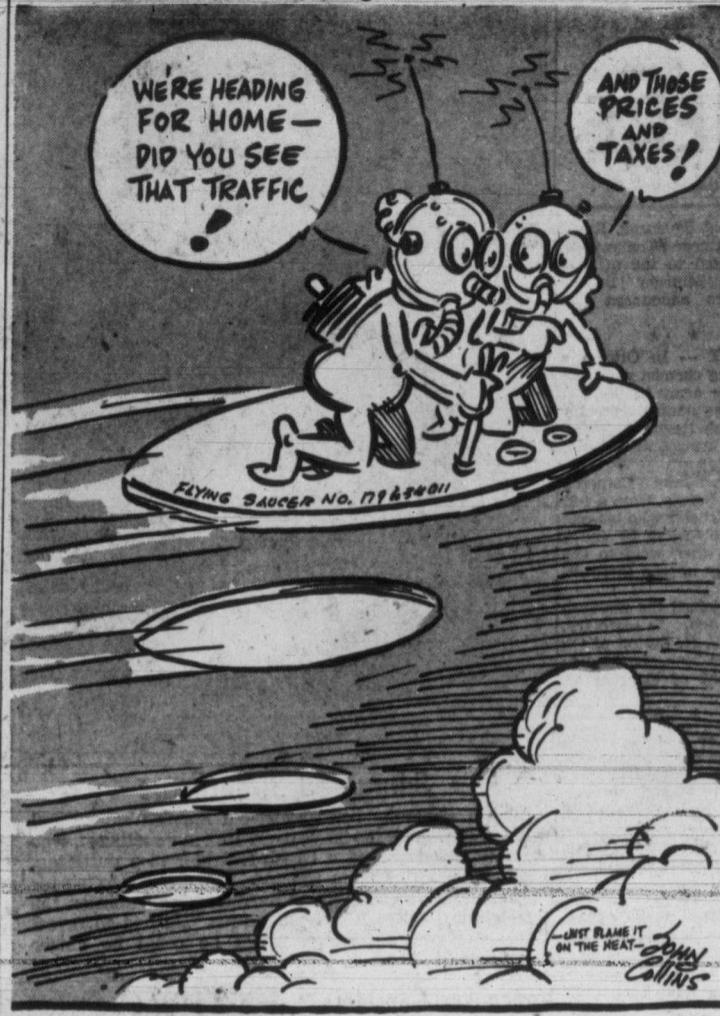

The chief casualty in the British Columbia woodworkers' strike appears to have been the law. The strike was illegal, having been called without a government-supervised vote, as B.C. labor legislation requires. But, of course, nobody was punished for this, and nobody will be.

After the illegal strike had run along for a month, an offer to mediate between the union and the companies came from all of all people—Chief Justice Gordon Sloan. Thus, the people of British Columbia were afforded the curious spectacle of their leading jurist trying to make a deal between a party which had scrupulously obeyed the law, and a party which had openly flouted it.

In this strange role, the Chief Justice succeeded. The strike is over, and the men are going back to work. But one of the conditions on which they are going back is that the companies will withdraw all court claims arising out of injunctions against union members. In other words, that the companies will forfeit their claims to justice for whatever wrongful acts may have been committed against them during the strike.

Thus, the law has taken a threefold beating. The immediate result will be a loss of public respect for it. The longer term result may be a good deal worse. If minorities can successfully defy the law, so can majorities. If majorities can successfully defy the law, then the law no longer exists.

No Wonder Those Flying Saucers Travel So Fast

Alliances Can Be Too Cheap

By WALTER LIPPmann
From Washington

ALTHOUGH we shall no doubt hear plenty about foreign policy during the campaign, we shall find, I think, that the serious problems of the United States policy cannot be treated as partisan issues. The main controversy of the past forty years was on whether we have vital interests across the ocean and whether we should make alliances to defend them. For Eisenhower and Stevenson that controversy is over. They agree, and on the fundamentals, of the new American policy: there can be no more argument between them than—let us say—on the fundamentals of that older American policy, the Monroe Doctrine.

But while the fundamental policy is now settled, its administration presents very difficult problems. A policy of alliances is notoriously difficult to conduct, and the U.S. has had only a very short experience. It is a mere ten years since it entered the wartime alliance. It is only five years since it committed itself in the Truman doctrine to "contain" the expansion of the Soviet orbit.

One lesson is, I believe, quite plain. It is that alliances should not be organized but particularized; that making an alliance should be treated like going into a business partnership, as something to be done prudently and not cheaply. We had tended to think that since alliances are necessary, we cannot have too many of them.

That, of course, is not true. An alliance is like a chain. It is not made stronger by adding weak links to it. A great power, like the United States, gains no advantage and it loses prestige by offering, indeed peddling, its alliances to all and sundry. An alliance should be hard—diplomatic currency, valuable and hard to get, and not inflationary paper from the mimeograph machine in the State Department.

A great power like the United States can, and should, cover with its guarantee many countries with which it would be unnecessary or unwise to make an alliance. One of the consequences of making unnecessary alliances is to depreciate the necessary and valuable alliances. For the inclusion of weak and unwilling states in an alliance merely increases the liabilities of the stronger states.

MOST HARM

It is in Asia, rather than in Europe, that Americans are doing themselves the most harm by trying to bring every non-Communist government into our alliance. When they say, as they like so often to say, that every government must choose between the U.S.S.R. and themselves, that in this great struggle there can be no middle or neutral, no separate and independent position, they are unwittingly playing the Soviet game.

It is, I believe, folly on their part to create a dilemma, to say that the only alternative to Soviet imperialism is an alliance with the United States. For them, when the old regimes of the Far East and the Qavams are overthrown, the U.S. is, so to speak, overthrown with them. It draws down upon itself the odium of a past that it had no responsibility for.

It would be ever so much wiser to say to the countries of Asia, particularly to those where a revolution against the old regime is in progress but is not yet completed, that America will support, and indeed guarantee, their neutrality against Soviet aggression—and, on the other hand, that it will regard it as an unfriendly act if they themselves abandon their neutrality and adhere to the Soviet orbit. Then instead of asking them all to join it, the U.S. will be content with their not joining the Soviets.

Ups and Downs

By BRIAN TOBIN

"IF," said the Elevator Man, "we are as superior to dumb animals as we claim to be, it's surprising why we spend so much time trying to copy them. I see where a Swedish fireman has been trying to follow the birds—not to Victoria but straight up. He made himself a pair of plastic wings to flap, but so far the swallows and seagulls haven't felt the competition. But that is only one phase of it. All our lives we growl like bears, we're as brave as lions, as crazy as junks, as smart as foxes and as big as elephants. Always the animal comparison, you see, as though they were the standard of nature and we had to measure up to them. That's quite an admission for the highest form of creation to make. It looks like we're passing up the 'gingerbread man' in favor of animal crackers. Lower main!"

"The whole idea," said the Elevator Man, "must be a carry-over from the days when man was a defenseless little fellow huddled in a cave or a tree-top, and wishing he was big and strong like the sabre-toothed tigers, the mastodons and such rambling around outside. He's been trying to be as good as an animal ever since, and often succeeding. Trouble is, he often picks the poorest animals to emulate. The pig, the goat, the snake, the worm—they all have their human counterparts. Any donkey (human) can tell you what a poor fish (human) a man is to make a pig (human) of himself. Some old crab (human) is always taking the joy out of life for birds of paradise (human) and gay old dogs (human). And on the stock market, even bulls and bears have up and down. Mind the step!"

"The test comes," said the Elevator Man. "In finding whether the reverse is true—whether animals even the score by trying to be like humans. And the answer seems to be no. Only the odd chimpanzee who's been captured and can't help himself, ever approaches man's actions. And looking around, who's to blame the 'lower orders' for wanting to be exclusive?"

'Old Country' Growing Older

Windsor Star

BRITAIN'S problem isn't only a matter

of finances, although that's acute

enough, and perhaps has the greater

immediacy. It's also a matter of people,

and their groupings, and their groupings.

For instance, "women in the United

Kingdom outnumber men by 1,702,000;

and children under the age of 15 represent only 22.2 per cent of the population,

compared with 32.4 per cent 50 years ago.

These, too, are effects of war. They reflect the decimation of manpower in World War I and the reduced birth rate from the disturbed years of the late thirties down to the present.

The result is not a lessening of

British demands for food and living

British Still Miffed Over Jailing of Sailors

TOKYO, Aug. 8 (AP)—Miffed over the jailing of two English sailors by a Japanese court, British officials today declined to attend officially the ceremonies Aug. 10 honoring Will Adams, the first Briton to become a Japanese citizen.

The sailors from the cruiser Belfast, Derek Smith and Peter Stinner, recently were convicted in a Japanese court for stealing

a Japanese taxicab at Kobe June 29 and forcing the driver to hand over 1,700 yen (about \$5).

They were sentenced to 30 months in jail. British authorities contend the men should have been tried in a British military court.

Until Japan regained sovereignty April 28, each occupying power handled its own court cases. No agreement between

Czech Families Forced to Move

VIENNA, Aug. 8 (AP)—Reports from usually reliable sources said Thursday that the Czechoslovak government is deporting thousands of members of the former middle class from key cities.

The reports compared the wave of deportations to those in Hungary.

Thousands of families were said to have been driven from their homes in Prague, Bratislava and other cities in the last two or three weeks.

The reports said lawyers, architects, former factory owners and persons who held similar jobs before the Communists squeezed them out were prime targets.

At least 10,000 persons were reported forced to leave their homes in Prague and Bratislava during the first week of the deportations.

The reports received here said the first homeless families had left the two cities about July 18. Since then, trainloads of deportees were said to have been leaving two or three times a week.

The reports said the government

had agreed to let Canada take in 10,000 refugees.

OTTAWA, Aug. 8 (CP)—Canada will open discussions with Japan within the next few weeks in an attempt to negotiate a bilateral trade agreement, trade and financial officials disclosed Thursday.

The conference will take place in Ottawa and will be attended by Japanese officials from Tokyo and Washington.

Tariff discussions will be included. Canada likely will agree to reduce some tariffs in exchange for the specific right to impose a dumping duty on the reduced items if Canadian officials consider they are selling in Canada at abnormally low prices and undermining fair Canadian competition.

The conference will be a halfway measure in dealing with persistent Japanese demands for lower tariff rates.

EUROPEAN PEAK

Highest mountain in Europe west of the Caucasus is Mount Blanc in France, reaching 15,781 feet.

He broke the world's two-hand clean and press mark with a weight of 33½ pounds, then set a Canadian open record with a two-hand snatch of 269 pounds. Hepburn finished up with a bench bar lift record of 348½ pounds for the clean and jerk.

His total of 965 pounds was a new Canadian open record and also broke the British Empire total of 935 held by Harold Clegg of New Zealand.

Van. Man Breaks World Lift Record

VANCOUVER, B.C., Aug. 8 (BUP)—Doug Hepburn of Vancouver Thursday set four new Canadian weightlifting records in an exhibition performance.

He broke the world's two-hand clean and press mark with a weight of 33½ pounds, then set a Canadian open record with a two-hand snatch of 269 pounds. Hepburn finished up with a bench bar lift record of 348½ pounds for the clean and jerk.

The conference will be a halfway measure in dealing with persistent Japanese demands for lower tariff rates.

COLIN CAMERON DUCKS MME'S SWIFT THRUST

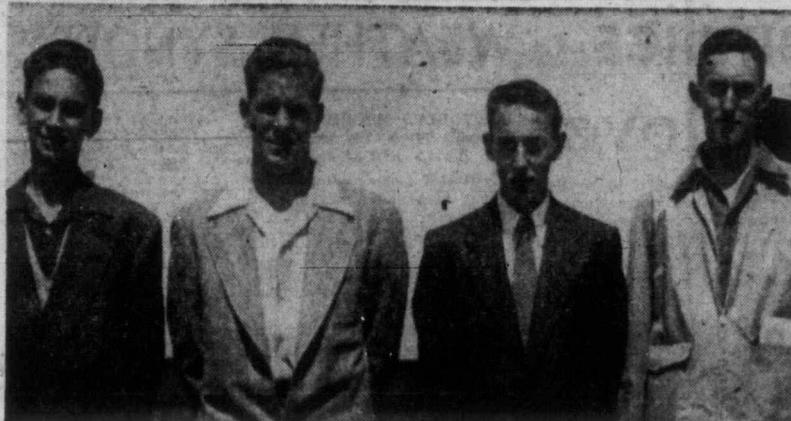

TORONTO, Aug. 8 (CP) — Flery C.C.F. stalwart Colin Cameron, former member of the B.C. Legislature and a defeated candidate in the last provincial election, parried a thrust from Quebec's C.C.F. leader, Mme. Therese Casgrain and quickly mollified the sword-sharp debater in national convention here.

The federal government should provide funds to enable the appropriate provincial educational authorities to establish classes to teach immigrants "the language of the country," Mr. Cameron urged.

Mme. Casgrain asked quietly: "What is the language of the country?" She looked very hard at Mr. Cameron. "Which one do you mean?" she pressed pointedly.

Mr. Cameron, always quick to recover his poise, assured Mme. Casgrain he had intended no discrimination.

The phrase in the resolution as adopted read: "to teach immigrants the English or French language."

Victoria Boys Head for Navy Career

A career in the Royal Canadian Navy lies ahead of these four former Victoria Sea Cadets, who left this week for a special training course at H.M.C.S. Cornwalls. The boys (left to right), Leverne Stilborn, Kenneth Harrison, Jack Wren and Douglas Tanner, have signed up for

a seven-year "hitch." After basic training they will undergo a three-year apprenticeship course aboard a training ship in eastern Canada. They will be the first from Vancouver Island to receive the recently-inaugurated apprenticeship training.

'EXPOSED TO TEMPTATION'

Farouk's First Wife Wants Daughters Back

CAIRO, Egypt, Aug. 8 (Reu-theless she has always been divorced wife of Farouk, plans to see at the theatre or driving through the capital.

Her father, Senator Jussef Zulficar, today saw Gen. Mohamed Naguib, commander-in-chief of the Egyptian armed forces, who led the coup against Farouk.

Prime Minister Aly Maher said today that Egypt would welcome the return of Farouk's daughters

if they are to be exposed to temptations if they continue to stay with the ex-king."

Farouk's three daughters by his first marriage are Ferial, 15; Fawzia, 13, and Fadia, nine. His second wife, Narriman, bore him a son, now seven months old, in whose favor Farouk abdicated.

Since her divorce Farouk has led a secluded life. Farouk forbade her remarrying or making any public appearances. None-

RECORD CROP INDICATED

REGINA, Aug. 8 (CP) — Saskatchewan seems headed for its greatest crop in history, J. H. Wesson, president of the Saskatchewan Co-operative Produce Limited, said Thursday.

In a brief impromptu talk to the annual convention of the Saskatchewan division of the Canadian Weekly Newspapers' Association, Mr. Wesson said the wheat pool condition figure for wheat is 160.

If that figure is maintained for the next two weeks, Mr. Wesson said, "we will have the greatest crop we've ever had."

(The wheat pool crop condition figure is based on 100 as representing the long term average of 15 bushels for each headed acre.)

Music, Air-Raid Shelters for Ottawa Workers

Plush \$8,000,000 Building Occupied

OTTAWA, Aug. 8 (CP) — The big exodus is on—a trek from dingy offices to the federal government's newest and most gleaming edifice, an \$8,000,000 structure boasting piped-in music, air-raid shelters, shower-bathing and the country's biggest cafeteria.

For years the 1,350 men and women who run Canada's facts-and-figures factory, the Bureau of Statistics, have been dreaming of the shift.

Now, from a temporary wartime building and a converted saw mill on the east side of town, they're pouring into a four-wing, brick-and-concrete-and-steel structure on the west side in the biggest government shift in recent years.

Day after day, a fleet of commercial vans, hired at a cost of about \$70,000, have been transferring them.

Eighteen months in the making, Canada's new facts-and-figures factory has just about everything a worker could want. A color dynamics expert has been employed to make rooms look warm and comfortable.

The great honeycomb of rooms and corridors is completely air-conditioned, and civil servants will be able to get medical care at the government's biggest health unit located right in the building.

Down on the first floor, Canada's biggest and most-up-to-date cafeteria can seat 1,400 diners in comfort at one sitting.

The building also boasts a reinforced section for air-raid shelters, a two story auditorium, a conference room-trimmed in mahogany and a centrally-located, well-equipped office which can pipe out soft music to weary employees.

IN TOWN TONIGHT

ON THE SCREEN

ATLAS — "The Pride of St. Louis" at 1:30, 5:30, 9:27.

"Decision Before Dawn" at 3:30, 7:15.

CATHERINE — "The Lion and the Horse" feature at 1:35, 3:34, 5:33, 7:32, 9:36.

PLAZA — "Rodeo" plus "Tough Girl."

SPORTS

W.L.L. BASEBALL — Wenatchee vs. Victoria, Royal Athletic Park, 8:00 p.m.

PARKS

HOME-TOWNS — Beacon Hill Park, 7:30.

Montreal's Mystery Blast Still Mystery

Montreal, Aug. 8 (CP) — that the jolt was caused by an aircraft diving at supersonic speed—faster than the speed of sound. This creates a shock wave that causes a tremendous clap as the wave hits the ground.

The R.C.A.F. says it had no jet aircraft aloft. Canadian Corporation, which produces jet fighters, says it had jet planes up but their pilots have strict instructions not to create such disturbances. And, they add, such a disturbance could be felt over only a half-mile area. The shock was felt in two areas about five miles apart.

The disturbance did not last long enough to be classified as an earthquake.

India's Dhauligorge, winding through the central Himalayas, gains 10,000 feet in elevation in 35 miles.

TODAY and SATURDAY

At 1:30, 5:30, 9:30

 Goods 83.80, off 0.15
 Base Metals 198.05, off 0.53
 Western Oils 142.12, up 1.30
 Sales: 270,400.

N.Y. MIXED, LIGHT GAIN

NEW YORK, Aug. 8 (AP)—Highly selective buying and selling made a fickle affair of today's stock market.

The bulk of the list held to a fractional range, and most of the time it was on the higher side. But there were wide swings in individual issues that pushed the range to around three points higher to two points lower.

Volume expanded to an estimated 1,200,000 shares as compared with 1,180,000 shares traded yesterday.

Railroads started out leading the procession ahead with a good show of strength. These gains were cut back slowly, and the group relinquished market leadership.

Motors then came to the fore with Chrysler out in front and at a new high as a result of a much report. General Motors eventually followed along, also at a new high.

Celanese was under pressure after reporting a net income for the first half at around \$1,100,000 as compared with nearly \$18,000,000 earned in the first half of last year.

Toronto Advances

TORONTO, Aug. 8 (CP)—Industrial issues advanced about two points on the stock exchange's index in moderate trading towards the market's close.

The industrial's jump is a continuation of an advance that has gone on steadily—with one interruption last Tuesday—since the middle of July.

Base metals and golds continued weak but western oils were firm. Base metals improved slightly toward the close but remained below yesterday's close.

Industrial trading today covered a broad list of issues, most of which registered fractional gains. Volume for the session totaled about 1,800,000 shares.

Retail stores were the only mixed group in the industrials section; the rest were strong, led by steels, utilities, refining oils, banks, manufacturing and miscellaneous issues.

Montreal Edges Up

Montreal, Aug. 8 (CP)—Fractional advances ruled the stock exchange and curb market in moderate dealings towards the close today.

Small gains were usual after a steady opening. Canada Steamships advanced 2 1/4 points to 70% and Dominion Bridge improved 1 1/2 at 84 for the only major moves.

Steels set the pace for the advance followed by utilities, senior oils and carriers.

Miscellaneous industrials, senior metals and banks balanced a scattered list of fractional changes.

Papers dipped slightly and beverages continued to trade unchanged.

Vancouver Steady

VANCOUVER, Aug. 8—Noon close. Trading was fairly active in the early session at Vancouver today with interest mostly concentrated in senior western oil issues. Mining stocks also attracted some speculative interest but lower-priced stocks shaded off.

In the oils, Yankee Princess picked up 2, closing at \$125; Calmont at \$1.60 was up 2; Atlantic was stronger at \$6; Federated Pete was ahead at \$10% and United gained 15 to \$24.40.

Beaver Lodge at \$4.60 was down 4. Industrial stocks continued strong and mostly unchanged.

London Active

LONDON, Aug. 9 (Reuters)—Stock market activity today broadened out after mid-day. Most active section was foreign bonds where a variety of widespread movements were recorded.

In German bonds, values tended to move erratically but they eventually settled down and showed small gains on the day. The German potash loans, however, remained out of favor.

Some good gains were seen in the Japanese dollar clause bonds but they closed under best.

Anglo-Iranian provided a good feature in the oil-share market by rising sharply to 6 1/2 on news that Iran has offered to re-open negotiations with the company, seeking a solution to the dispute.

Time Out for Tennis Beauty

Five lovelies in the B.C. lawn tennis championships deserted the courts on Thursday night long enough to line up chorus girl fashion for Times photographer Bill Halkett. Showing their charms to the camera are, left to right:

Mrs. Peggy Manset of Santa Barbara, Miss Marjorie McCord of Berkeley, Victoria's own Marg Bonner, Mrs. Muriel Kifer of San Francisco and Mrs. Elizabeth Loock of Mill Valley. The championships will be concluded Saturday.

FERGIE 'NOT PLEASED'

Salmonacs Hop On Shamrocks

Salmonacs 21, Shamrocks 14

By DENNY BOYD

NEW WESTMINSTER, Aug. 8.—The mystery that is the Victoria Shamrocks moved into still another chapter here Thursday night and it was the New Westminster Salmonacs who qualified as culprits in the latest "whodunit" developments.

Not looking like a team that has held the Intercity Lacrosse League lead all season, the Shamrocks were plastered for the second night in a row, this time by a 21-14 count as the Salmonacs exploded with an awesome power.

Whether the troubles that are vexing the Rocks recently are first-place complacency or the result of injuries will be partially solved next week when Arnie Ferguson and Norm Baker return to the fold.

Coach Ferguson makes no bones about the fact that he is not at all pleased with the performance of the club in recent games.

ESTABLISHED FACT

After tonight, either P.N.E. Indians or Salmonacs will be only two points behind the Rocks as the once lengthy Irish lead has diminished to four points. Salmonacs meet Indians on the mainland tonight.

The Rocks now have five games left, three on the road against Indians, Nanaimo and Vancouver and two at home, against Vancouver and New Westminster.

Salmonacs scored three straight goals to open the game and finished the opening period with a 6-3 lead. The Rocks came back strong in the second frame with Duff McCaghey and Tommy Drue scoring two goals each and cut the Salmonacs lead down to 9-8 at the half.

But that was as close as the Rocks were to get as the New Westminster club fired home five straight goals in the first eight minutes of the third quarter and finished the frame with a 16-11 edge. Reo Jerome scored three Salmonac goals in the last quarter.

JEROME NETS SEVEN

Rugged Jerome, a great performer going both ways, slipped seven goals behind Jim Hetherington and added two assists to tall all individual awards for the night. Jackie Northup contributed three of Victoria's goals and Whitey Severson picked up two goals and two assists.

The Rocks received a measure of comforting news when it was discovered Duff McCaghey's injury, suffered Wednesday night against Nanaimo, was not as bad as it had seemed at first. X-rays disclosed no broken bones in his foot.

Miss Pepsi Tops Gold Cup Qualifiers

SEATTLE, Aug. 8 (AP)—A three-day-old qualifying record tumbled Thursday as Chuck Thompson pushed the Detroit-owned Miss Pepsi through a nine-mile run at an average speed of 103.746 miles an hour to qualify for Saturday's running of the Gold Cup.

His run broke the record set Monday at 102.564 miles an hour by the Slo-Mo-Shun V. Thompson's run followed by minutes an unsuccessful effort by Wild Bill Cantrell in Such Crust to beat the Slo-Mo's mark.

Thompson made one circuit of the course, then waved for a timing and sailed smoothly his required three laps. His twin-engine giant turned the first and last lap at 103.448 and the middle lap at 104.046. The latter was a shade under the Slo-Mo's fastest of 104.651.

NEW PRESIDENT SOUGHT

NEW YORK, Aug. 8 (AP)—American Hockey League club owners met for nine hours Thursday but failed to name anyone to succeed Maurice Podoloff who resigned as league president. The owners will meet again today.

LEONARD NEAR PACE

Par Takes Beating At Tam O'Shanter

CHICAGO, Aug. 8 (AP)—Tam O'Shanter Country Club was ready to post this notice today: "Wanted—the murderers of par."

Selmon has a golf course been so thoroughly sandbagged.

Promoter George S. May turned it into a racetrack by offering a \$90,000 purse distribution for a world championship tournament.

The winner will collect \$25,000.

Wild-eyed pros, some of whom have grown lean eating hamburgers on the grueling tournament grind, set out for the bonanza in Thursday's first round.

As expected, par 36-72 wasn't worth a plugged nickel. Twenty-eight, or 35 per cent of the field of 80, shattered it.

Breaking into the lead was a pair of club pros, Lew Worsham and Mario Gonzales, the Rio Grande pro.

They were followed by another player who gave up tournament play to stick mainly to teaching. Harry Todd, and a South American wanderer, Roberto De Vincenzo. Each posted 67.

These four front-runners—Cooper, Worsham, the 1947 National Open champion from Oakmount, Pa.; Todd and De Vincenzo—have earned a total of only \$10,817 in tournament golf this season.

"They'll choke up in the stretch drive," said veteran Dutch Harlan, "and some of us oldtimers will pass them."

Dutch was satisfied with a starting 72 and was grouped with such "oldtimers" as Chandler Harper, Cary Middlecoff, Skeet Riegel and Jim Turness.

Bunched at 68, only three strokes off the pace, were Dave Douglas, Earl Stewart, Jim Ferrier, Julius Bora, the surprise 1952 National Open champion, and Mario Gonzales, the Rio Grande pro.

At 69 came Ed Oliver, Stan Leonard of Vancouver, John Barnum, Doug Ford, Ed Furgol, Jack Burke and Johnny Bulla. Pat Fletcher of Saskatoon had a 37-38-75, three over par.

TALKING OVER CHAMPIONSHIP

form are three visiting players in the B.C. lawn tennis championships at Victoria Lawn Tennis Club. Making up the huddle are, left to right: Jerry DeWitts of Oakland, Paul Willey of Vancouver, and

Fred Fisher of Seattle, whose racquet is being scrutinized, and George Manset of Santa Barbara. All four players were battling in the semi-finals of the men's singles today. See story Page 9. (Times photos by Bill Halkett.)

Cards, Phils On Move As Dodgers, Giants Feud

Eddie Stanky, the brash freshman, and Steve O'Neill, the old greybeard back for another try, are turning the National League into a four-club race while Brooklyn and New York trade punches in a private neighborhood brawl.

The Cards closed to within 8½ games of the Dodgers Thursday night by whipping Cincinnati, 7-4, as Brooklyn rebounded from an afternoon 8-2 defeat to top New York 7-5 in the night half of their

day-night doubleheader.

Philadelphia, winning 28 of 40 starts since O'Neill replaced Eddie Sawyer as manager, swept a pair from Boston Braves, 2-1 and 10-2, behind Robin Roberts and Russ Meyer. Roberts' three-hitter was his 17th victory.

Nobody gained anything in the American, except the seventh-place St. Louis Browns, who are too far back to make any difference. The leading New York Yankee split with Washington, losing the first 4-2 but coppering the second 7-1 on Bob Kuzava's four-hitter.

The Boston Red Sox dropped the first of two at Philadelphia, 7-5 but came back to break even, 3-4. The Brownies won their second straight 12-inning game, from Detroit, 5-4, on Gordon Goldberry's double.

The "big" series in the Polo Grounds went to the Giants, two games to one, but they picked up only one game on the Dodgers in the second and still trail by 5½ games.

The Boston Red Sox dropped the first of two at Philadelphia, 7-5 but came back to break even, 3-4. The Brownies won their second straight 12-inning game, from Detroit, 5-4, on Gordon Goldberry's double.

On the OUTDOOR FRONT

By DENNY BOYD

Local anglers are developing shaky nerves as they impatiently await the annual coho run. The run has started in the Comox-Courtenay area and at present it is rated as a hot spot with some phenomenal catches being made.

Although some coho have been caught in local waters, the catches have been spotty and commercial fishermen say that the biggest part of the run is still 50 miles out at sea.

The commercial boys, who are the people to ask in a case like this, claim that the run should be in and fishing at its best in two or three weeks at the most.

Salt water fishing seems to have tapered off slightly locally although some big fish have been taken at Saanich Inlet. Cowichan Bay has produced some really big springs but again it is a case of the fish being big but not plentiful.

Fresh water fishing is almost a dead issue now with the exception of upper Campbell Lake which can usually be depended upon to produce.

Oyster River had a concentrated run of sea-run trout recently and while they were hard to catch, there were enough fish there to guarantee an interesting time.

With the hot season in full swing, the bass lakes are coming in for added attention. In this type of weather, daytime fishing is not too productive as the fish lie deep. But at night when they come up to feed in the shallows, a surface plug cast in near the shore can be deadly. For this type of fishing Beaver, Elk, Florence, Langford and St. Mary's Lakes are recommended.

Trueblood's Controversial Theory

Incidentally, on bass fishing, here is a new angle. Perhaps you, just like us, have always prided yourself in using light line for bass fishing, figuring that 10-pound test was sporting to the fish and light enough to cast well.

Ted Trueblood, who is rapidly becoming the dean of fresh water fishing south of the border, has written what may be an extremely controversial story in Sports-Field:

The story, called "Let's Be Practical," suggests that the use of light line is not practical because of the habitat of the bass. He claims the light line does not stand up in the weed beds, stumps and deadheads where the biggest bass are found.

The heavier line, and he suggests 24-pound test, will not only get in there but if snagged will allow the angler to horse it out and will not let a big fish drag it around a snag.

Although his suggestions go against what is a moral code for many anglers, Trueblood is too experienced an angler for the average fisherman to shrug off.

But still, it's nice to read about things like the fellow who caught a 160-pound tarpon in the south using a light bait casting rod and a 14-pound test line. It took him two hours to land his unexpected catch.

Last Week to Gain Ladder

Tyees, not the baseball variety, are beginning to make their presence felt around Campbell River. Stan Deren landed a 50-pounder off the Willows Wharf Monday and Harold Low of Santa Anna, Calif., conquered a 59½-pounder Tuesday.

If you haven't secured your run on the Victoria-Saanich Inlet Anglers' Association annual ladder derby, your time is growing short.

This is the last qualifying week and it is expected a host of fishermen will be out in the Inlet waters this week-end to gain the remaining berths and qualify for the prize fish-off, Aug. 24.

Davidson Sights On Singles Bowling Title

The men's singles crown of the Silver Jubilee Holiday Lawn Bowling Tournament may be returned to Victoria after an absence of six years.

The man upon whom the task has been put is veteran Bill Davidson of Victoria West Lawn Bowling Club. He will meet J. Hazlett in the singles final and if he succeeds in defeating his opponent, he will be the only Victoria to perform the feat since 1946 when Bill Peden won it.

Hazlett joined Davidson in the finals by defeating Beacon Hill's J. Muncy Thursday night in the semi-finals after Muncy had won his quarter-final match with Ernie Meyers of Tacoma.

Hazlett, one of the best of a large crop of visiting players, downed Muncy 15-3 and will be a strong opponent for Davidson.

Muncy had qualified to meet Hazlett by upsetting highly-rated Meyers 15-9 in one of the most interesting matches of the tournament.

The doubles team of D. Brown and J. Ritchie of Seattle are the first qualifiers for the men's doubles final as they downed defending champions R. Bindley and W. R. Scott of West Vancouver Thursday. Their opponents will be decided by the outcome of the semi-final match between W. G. Murray and E. Rea of Grandview and Meyers and L. Thomas of Tacoma.

The battle for the new Cross Rose Bowl, for doubles runner-up honors, saw A. Dickie and C. Menzies of Burnside draw a position in the finals. Johnny and A. Gavin of Stanley Park and J. Stevan and H. Rees of Seattle will battle for the other position.

Marlene Leads Field

By JIM PEACOCK

EDMONTON, Aug. 8 (CP)—Twenty-year-old Mary Gay of Kitchener, Ont., was the only one in a field of 83 with much hope of overtaking champion Marlene Stewart here today in the Canadian Women's Close golf tournament.

Mary Stewart, 18-year-old separation from Fonthill, Ont., won the crown last year in her first attempt, blistered the Edmonton Mayfair's par 79 with a seven-under 72 in the opening round Thursday.

The likeable little champion could do no wrong. Her long drives, accurate seconds and sure putts gave her six birdies and an eagle three on the 405-yard third. She went out in a four-under-par 35 and came in with a three-under 37.

Babs Davies of Vancouver chopped six strokes off the former course record and led the Ontario team to a 16-stroke lead in the interprovincial team competition being staged simultaneously with the Close.

B.C. was strongly rated until

Marjorie Todd of Victoria failed to show and was replaced by junior Shirley Fry of Esquimalt Gorge Vale. Miss Fry had 96.

Dorothy Herbertson of Esquimalt became B.C. junior member and shot an 85 to tie for fourth with Dainty Chisholm of Montreal and Mrs. A. K. Snell and Mrs. Hazel Jamieson of Edmonton.

Bracketed at 86 were Rae Milligan of Jasper, Alta.; Mrs. W. S. Edeye of Winnipeg and Mrs. N. J. Carlson of Toronto.

The youngest player in the competition—14-year-old Betty Stanhope of Edmonton—was a lone 87.

Margaret Todd had 90.

The 36-hole team play ends today and the 54-hole team Close Saturday.

E. & N. Superintendent Off to Kettle Valley

A. J. Cowie Switching Railroad Posts; Quits Chamber of Commerce Chair

A. J. Cowie, superintendent since 1948 of the Esquimalt and Nanaimo Railway, has been appointed Canadian Pacific Railway superintendent at Penticton, headquarters of the Kettle Valley Railway.

He will exchange positions with D. C. Hartley.

Mr. Cowie is chairman of the Victoria Chamber of Commerce Industrial Committee, and vice-president of the board of directors of the Y.M.C.A.

His resignation has been received by the Chamber of Commerce, and a special meeting will be held next Wednesday to elect a successor. Mr. Cowie is also a member of Rotary International.

A. J. COWIE

Blame Cars For Crashes

A railway superintendent told Oak Bay Kiwanians Thursday night that train-car accidents at grade crossings are a "very serious problem."

A. J. Cowie, superintendent of the Esquimalt and Nanaimo Railway, said "over a long period there has existed a general impression among the public that grade-crossing accidents are caused by trains."

"Statistics prove that 32 per cent of the accidents last year were due to highway vehicles running into the sides of trains moving through intersections."

"Travelling at 50 m.p.h. it takes a fraction less than seven seconds for the average train to cross a highway," said Mr. Cowie. "All you have to do is beat the train just nine times and you have saved a whole minute."

"Either way you get across—across the track, or a cross in some cemetery."

Island-Grown Seeds Mostly Sold to U.S.

Nearly all seed production from Vancouver Island is exported to the United States. W. H. Robertson, deputy minister of agriculture, told growers Thursday at a field day sponsored by the Vancouver Island branch of the B.C. Seed Growers' Association.

The growers, some 50 in number, visited the farms of G. A. Robinson, Ernest Gate, Dixon Holloway, Butchart's Garden and the Dominion Experimental Station.

U.N. Steps Up Air War On Red Military Targets

MUNSAN, Korea, Aug. 8 (AP)—With United Nations planes pounding North Korean military targets in redoubled fury, the U.N. command today asked the Communists for more information on how they mark their camps for U.N. prisoners of war.

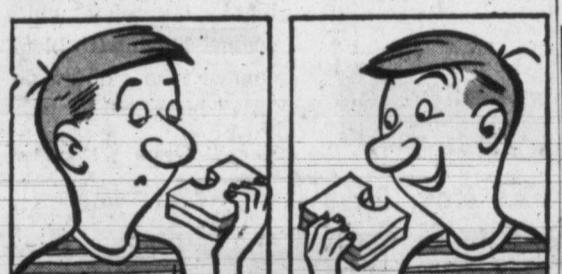

The Reds have declared that all their prisoner camps are marked properly. But the senior U.N. true delegate, Maj.-Gen. William K. Harrison, has told them that U.N. reconnaissance planes

have been unable to find camps marked as described.

A note from Harrison asking more information was given the Communists at Panmunjom today at a 20-minute meeting of liaison officers.

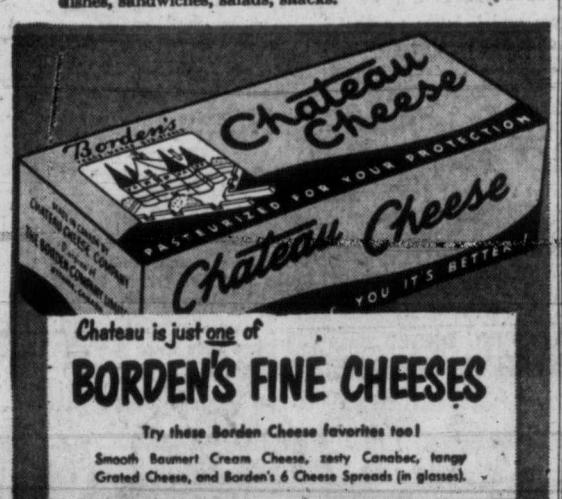

In a second note Harrison rejected a Red charge that a U.N. plane flew over the Panmunjom neutral zone Aug. 4.

Red China's Peiping radio, in a propaganda blast, called Harrison a liar and a negotiator "with nothing to say."

What makes the difference?

One cheese sandwich can look just like another . . . but the flavor can be deliciously better, thanks to hearty Chateau! The secret of Chateau's taste-tempting mellowiness is a master blending of fine Canadian Cheddar with thick, fresh cream. It's a real cheese flavor . . . that makes the tempting difference in cheese dishes, sandwiches, salads, snacks.

ISLAND DIGEST

NANAIMO, Aug. 8—James Bonnar, pilot who crashed in his light plane Monday on the shore of Loh Lake, four miles from here, is still in hospital suffering internal injuries, incisions, and shock. His condition is unchanged, hospital authorities stated.

CORBLE HILL, Aug. 8—Vancouver Island Ratepayers' Association will hold a general meeting Aug. 16 at 2:30 p.m. in the Malaspina Hotel, Nanaimo, president George Bonner said today.

Members will discuss possible action regarding rates charged for oyster leases at Fanny Bay, and the current road and parking problem at the business center on Cowichan Bay.

In addition, various committees will be established.

DUNCAN, Aug. 8—With the settling of the woodworkers' strike, business boomed immediately as thrifty strike-bound wage earners relaxed the stringent budgets designed to carry them through a long work stoppage.

Department and grocery stores reported more than normal spending, and sales of heavy goods jumped. Merchants expected that the "boom" would await the woodworkers' first pay checks, but found instead that many buyers still had money.

NANAIMO, Aug. 8—Fred Whittaker, logger, who sought credit at a store under an assumed name, was found guilty in police court on a charge of false pretenses. Magistrate Lio-

nel H. Beevor-Potts imposed a suspended sentence and ordered Whittaker to post a bond of \$250.

DUNCAN, Aug. 8—A general meeting of the 4,500-member Local 1-80 of the International Woodworkers of America, which extends from Cobble Hill to Parksville and the west coast of Vancouver Island, will be held here Sunday at 10 a.m. at the Odeon Theatre. Delegates will be chosen to attend the I.W.A. 16th annual convention in Portland.

LADYSMITH, Aug. 8—Robert M. Strachan, M.L.A. elect for Cowichan-Newcastle, has been invited to open the Ladysmith fall fair Sept. 24, which will feature displays of fruits, vegetables, flowers, and a special animal exhibit.

Judge will be E. W. White of the horticultural division, department of agriculture.

Sockeye Salmon Pack In B.C. Shows Jump

VANCOUVER, Aug. 7 (CP)—The British Columbia sockeye salmon pack for 1952 was 46,963 cases more than for the same period last year, the department of fisheries announced Thursday.

A total of 379,738 cases was packed this year compared with 332,775 last year.

However, the department announced, bluebacks, coho and chum were down from last year. In 1951, 592,620 were packed against 560,923 this year.

ANCIENT LAND

Now a Communist republic, China was one of the world's

oldest monarchies with a history

reaching back to 2205 B.C.

It is understood here the Communists threatened to replace the Dalai Lama with the Panchen Lama unless the former co-operated with Peking.

FRIENDS MUST GO

Court Orders Veteran's Dog Pack Vanished

Frederick George Smith, the Corbie dog man, pleaded guilty in municipal police court Thursday when brought before Magistrate A. L. Thomas for unlawfully keeping a pack of dogs at his 3502 Calumet Avenue residence without having a kennel license or individual dog license.

The aged Smith, who has faced the charge almost annually for the last five years, acknowledged his guilt but explained he had only about 15 dogs this time. In the past he had as many as 30.

Magistrate Thomas took the usual course and remanded Smith one week in order to give him time to dispose of his unlicensed canines.

Smith sought advice from the court as to how he should go about the task, but was told that was his problem.

Smith said he would have to shoot the dogs or try to sell them.

"I will take a very serious view in this matter if you don't comply with this order," the magistrate declared.

Smith, who subsists on a \$30-a-month army pension, keeps the dogs with him in his house.

15 suicides in Greater Victoria in the past six months presents a sobering commentary on the mental health of our people," Dr. J. L. Gayton, medical health officer, said Thursday.

He made his quarterly report to the Union Board of Health for Victoria and Esquimalt.

There were 11 suicides for the whole of 1951.

"Number of births in Greater Victoria shows a slight increase

163 which is the second highest total on record," Dr. Gayton said.

Number of infant deaths remained low. There were 19 for 1,278 live births so far this year.

Mounting Rate of Suicide Here

Termed 'Sobering Commentary'

Total of 406 deaths were noted in the first three months of this year and 361 for the second month total of 767 cases of mumps was slightly above average.

Furry Family Adopted by S.P.C.A.'s Lady

Looking for new home but not without the immediate care of an adopted mother are these kittens, waiting for someone to take them away from S.P.C.A. shelter here. "Lady," owned by S.P.C.A. inspector Ben Maggs, is keeping watchful eye

on purring infants while they take first steps from their temporary home at 111 Wilson, where care is given stray animals. If you want to give any of the kittens a new home, they're yours by phoning S.P.C.A. at E 0514. (Times Photo.)

BETWEEN TIMES

By MONTE ROBERTS

Flash from the provincial department of public works: An anonymous telephone call informs me their new theme song is "Praise the Lord and shovels out the gravel."

Citizens of Victoria will have the opportunity to meet crew members from H.M.S. *Sheffield* on an informal basis. While the cruiser from the Americas and West Indies squadron is in port here, the crew will be able to accept invitations to visit Victoria homes.

This strikes me as a fine chance to entertain some of the lads from over 'ome... and lads is the right word, as many of the crew are 18 or younger.

I imagine that Victoria hosts will have at least as much fun as their guests. If you want to get in on this, telephone Lieut. Bill Patton, G 4101, Local 6.

A fountain pen company has made a survey, which proves, among other things, that today's children write better than their parents do.

This is good news, if my type of handwriting is any example of the horrors perpetrated by my generation.

I once had a letter, based on an interpretation of my signature, addressed to "C. W. Rolset."

However, there is some distressing information contained in the same survey.

It says the old-fashioned inkwell is fast disappearing, as modern children are equipped with ball-point pens of various types.

School is dull enough under the best of circumstances. But imagine school with no inkwells—no way to make inkballs, to be flung from the end of a bent ruler and to land with a satisfactory "splat" on the back of the Four-Eye's neck. This is especially distressing, as even the youngest misses are beginning to sport pony-tail hairdos.

Imagine sitting behind a pony-tail hairdo—and no inkwell into which to dip it!

The modern generation will grow up, frustrated and inhibited, unless something is done.

Let us preserve the old-fashioned inkwell. It is the inalienable right of every male student to get ink on the hair of the young lady in front of him.

Mayor Claude Harrison left yesterday on a private good-will tour of Vancouver Island and Gulf Island spots, traveling in his boat.

It is a well-publicized fact that Victoria is in mighty poor financial shape these days.

Does the mayor's private trip by boat mean he is going to float a loan?

TOPICS OF THE TIMES

Victoria Junior Chamber of Commerce will hold the first of what is hoped will be an annual evening party at Beaver Lake Aug. 15.

Program will include swimming, bonfires and sing-songs with wieners and coffee supplied by club caterers.

Beds of \$3,600 on an old home on Menzies Street and \$2,000 for one on Hillside were accepted by City Council finance committee Thursday and will go to council for approval. Bids of \$5,750 and \$4,750 on a Rockland Avenue home were rejected.

The monthly meeting of the Cerebral Palsy Parents' Club will be held Monday at 8 p.m. in the Knights of Pythias Hall, Cormorant Street. All parents of children suffering from cerebral palsy and persons interested in the furthering of plans to help these small victims until recently considered beyond aid, are being invited to attend.

William Falk will head the new View Royal Social Credit group.

Other officers elected at a meeting Thursday night were Robert Nicholson, vice-president, and C. E. Lambier, secretary-treasurer.

British Columbia's assistant chief forester, F. S. McKinnon, will represent the B.C. Forest Service at the sixth Commonwealth Forestry Conference in Ottawa next week.

Twenty-seven Victoria air cadets now are in Abbotsford for two week's summer training, participating in all phases of air force life from flying to drill parades.

Those on the station are C. Croft, T. Rogers, R. Lewis, D. Wright, L. Baldwin, R. Frost, K. Huot, D. Legeze, J. Nixon, G. Pert, R. Sam, A. Archbold, R. Cooper, H. Humphrey, G. Johnston, E. McPhillips, H. Masters, R. Mor-

ALL-INDIAN SHOW WAR CANOES GROOM FOR GREAT EVENT

Deep Cove goes back to its original tenants on a one-day lease Aug. 30 in the first all-Indian tribal regatta seen here in 20 years.

War Canoes, beauty queens, Indian games, colorful costumes and the chant of tribal songs will fill the cove in front of the Chalet with a pageantry that has all but disappeared over the years.

Sponsored by the Sidney and North Saanich Chamber of Commerce, the regatta will draw tribal entries from Saanich, the Songhees Reserve, Cowichan, Kuper Island, Nanaimo, Vancouver, Lummi Island and Laconer in the United States and the Chells Reserve up the Fraser River.

Chamber president Norman Wright said today that at least 10 war canoe entries are expected, their crews totalling more than 100 Indians.

PADDLE SONG

A parade of the war canoes and costumed Indians chanting The Song of the Paddle from a float will open the show at 1:30 p.m. The queen and her princesses will ride ashore in the bows of the canoes.

A double paddle race will precede the crowning of the queen—chosen from the tribe which sells the most tickets to the pageant—and a costume contest for Indian children from two to five will follow.

Canoe races will be held over a course in the cove and a "scramble" will wind up the pageant.

STONE HUNT

The "scramble" will take place on a 15x40-foot float with contestants searching for a colored stone hidden under a pile of boxes. The last man to remain on the float and escape being pushed into the water is named winner.

Contact man for the Chamber of Commerce is Chief Thunderbird.

Tribal members assisting in the arrangements include Marshall Harry (Brentwood), Albert Henry (Coal Bay), Art Albany (Songhees), Henry Williams (Cowichan), Eddie Brown (Nanaimo), Andy Paul (Vancouver) and Herbert John (U.S.).

The Corps of Commissioners and Boy Scouts will handle the ground, where parking space is available for nearly 1,000 cars.

Seating Tenders

Tenders for alterations to the arena at Memorial Arena will be received at the arena office up to 12 noon Wednesday.

Devoted Wartime Worker, Mrs. S. P. Moody Mourned

A resident of Victoria for 50 years, Mrs. S. P. Moody, distinguished for her work in two wars, died Tuesday in Vancouver, it was learned here today.

She had been ill for some months, following the death of her husband, Sewell Prescott Moody, whom she had nursed during the last year of his life at their Brentwood home.

Mrs. Moody went to Vancouver, where her children have their homes, during her own last illness.

Except for the past few months, Mrs. Moody had lived in Victoria or Brentwood since her marriage in the late 1900's. Her husband, the son of S. P. Moody, founder and president of the mills which gave their name to Moodyville, North Vancouver.

She is survived by her son, Prescott, and two daughters, Claire and Jean.

Mrs. Moody was an indefat-

New Site For Race Park Plan

Reclamation Cost At Portage High

A change in plans for the \$9,000,000 Portage Inlet reclamation centre has shifted the proposed site of two horse race tracks from the peninsula jutting into Portage Inlet in a westerly direction to an area closer to Helmcken Road.

Charles E. Craig, architect for the Royal Portage Parks Ltd., said today cost of reclaiming land along side the peninsula, necessary for construction of the tracks, was found to be too high.

A public hearing on the company's application for re-zoning of certain properties in the Portage Inlet district will be called "very soon," William Porter, chairman of the View Royal zoning board of appeals said.

The company's application, made originally in early June, asks for re-zoning of about 84 acres in the vicinity of Craigflower Auto Court for construction of a "resort area," including a hotel, nursery school, restaurant, chapel, yacht club and convention hall.

SITE SIGHTING

The area sought includes 2½ acres on which the Craigflower Auto Court is located, and 36 additional acres owned by the auto court. It extends from the highway east to the inlet and from Admirals Road north to the railway viaduct. It does not take in the low land where the company proposes to construct a canal to clean out the Gorge.

This is the first of a series of re-zoning applications which will be made by Royal Portage. More will be made as the company's plans progress.

Meanwhile, a group of residents in the area has more than 200 names on a petition protesting the whole project.

Formation of a Portage Inlet Ratepayers' Association is underway, and a lawyer will be hired to fight the case for the protesting landowners, according to Mrs. Florence Barr.

An official of the View Royal Community Association said the organization has decided to remain impartial on the issue, and individual members take their own stand.

It is expected the new government will try to persuade Mr. Kennedy to take a director's post, thereby keeping the services of the man who is credited with putting the P.G.E. on its feet in recent years.

Premier Bennett himself probably will take over the presidency of the P.G.E. This is a customary practice.

CITY CLERK VOTES FOR ROMPERS

Toga, Sandals Garb for Mayor If Alderman Mulliner Has Way

By AILEEN CAMPBELL

City Hall may look like a come as you are house party one of these hot days.

Acting-Mayor Frank Mulliner may receive in a toga and sandals...

City Clerk Frank Hunter may go about his duties in an outfit resembling rompers.

City Solicitor Arthur Patton may give legal opinions in shorts and an open-necked shirt...

Hard to believe isn't it? Particularly these three public figures noted for their careful, conservative garb at all times.

However, that authority in the world of fashion—The Financial Post—is worried about men's clothing in the hot weather.

They wired Mayor Claude Harrison today and urged him to send his ideas post-haste on "some desirable and generally acceptable reforms in men's business clothing."

The mayor is out of town but Acting-Mayor Mulliner was

J. A. KENNEDY

J. A. Kennedy May Be Named P.G.E. Head

Valuable Experience Considered Needful

Appointment of J. A. Kennedy, general manager of the government-owned Pacific Great Eastern Railway, as a director—and possibly managing director—is forecast in government circles.

Mr. Kennedy, along with the entire board of directors submitted his resignation to Premier W. A. C. Bennett this week. Mr. Kennedy's resignation, however, was submitted with the understanding he would stay on the job until a successor was chosen.

Resignation of the directors, John Hart, Byron Johnson, Herbert Ancombe and James Stewart, chief engineer and acting deputy minister of railways, have been accepted by Premier Bennett.

But the government, it is understood, is reluctant to lose the valuable services of Mr. Kennedy who has been P.G.E. general manager since 1949. Mr. Kennedy was superintendent of the Esquimalt and Nanaimo Railway for 18 years, retiring in May, 1948.

It is expected the new government will try to persuade Mr. Kennedy to take a director's post, thereby keeping the services of the man who is credited with putting the P.G.E. on its feet in recent years.

Premier Bennett himself probably will take over the presidency of the P.G.E. This is a customary practice.

Trust companies were criticized by Mr. Justice A. M. Manson in Supreme Court chambers here today for not making use of their powers to obtain increased benefits for estates held in trust by them.

His Lordship was referring to powers given to trust companies under wills which permit them to invest moneys of estates on behalf of their clients.

He said trust companies did not "bother" to buy bonds which yielded the highest interests.

"They usually buy bonds which only yield 2½ per cent," he said, "when there are plenty of good bonds on the market which yield 5½ per cent."

He said he felt that companies should make more of an effort to see that moneys invested yielded a good interest.

"Sounds like a good idea," remarked his secretary.

The more colorful the better, was the dictum of Percy Wright, assistant city clerk.

"So long as I can wear a bow tie, he added.

"P.S.: It was awfully hot today. Folks around City Hall are very co-operative when a reporter wants to get a good dog day story."

"I'm pleased as of that," he said.

He will be buried at the front door of her home.

Mrs. Holmes told investigating officers the thief must have gained entrance to her home through the front door; helped himself to the cash and departed without being noticed.

Thief Sneaks Cash From Parked Purse

Mrs. A. E. Holmes, 341 Vancouver Street, reported to city police Thursday theft of \$70 from her purse, which she had left in the front bedroom of her home.

Mr. Holmes told investigating officers the thief must have gained entrance to her home through the front door; helped himself to the cash and departed without being noticed.

ROSE BOWL AWARDS

City Amateur Talent Shows Each Friday

The fifth annual amateur entertainment contests will open tonight in the Cameron Memorial Bowl at 7:45 in Beacon Hill Park.

The series will be presented each Friday night at the same time until the end of the month, under the sponsorship of the city parks administration in co-operation with local 247 of the American Federation of Musicians.

Amateur entertainers in three groups—under 13, 18 and senior open—will compete for three Brock Whitney Rose Bowl trophies, to be presented to the top finalists Sept. 3.

Fred Usher will act as master of ceremonies with the Homeowners, providing musical entertainment.

Guest artists for the opening show tonight will be singers Leona Hanley and Don Mulcahy, featured in semi-classical duets.

Weekly entries will be limited to three performers in each category.

More than 3,000 persons saw the show nightly last year.

Blamed for Thefts

Juveniles are believed responsible for the Thursday night break-in of Hillside Pure Foods Store at 1390 Hillside Avenue.

City police who investigated the incident found nine cents taken from the cash register; 10 packages of cigarettes and eight chocolate bars missing.

Entrance was gained by removing a board covering a small window. Those who entered made their exit through the rear door.

Foundation Work Started on Curling Rink

Construction of a \$145,000 curling rink on Quadra Street began today. Copley Bros.' bulldozer began excavation for building, while carpenters got lumber ready for foundation work. The Victoria

Curling Club to date has sold \$80,000 in bonds toward rink. Building permit was issued Thursday by the city. R. C. Robinson of Vancouver is architect. (Times Photo.)

SHOPPING GUIDE

There's Oodles of News From the Produce Front

By PENNY SAVER

Let's have a bit of a change today! Here we are, right in the middle of the peak season for fruits and vegetables, and I have scarcely mentioned it recently.

When I realized this I phoned up a friend in the wholesale produce business and he loaded me with information.

Wholesale row is really a hive of activity these days with shipments of fresh produce arriving every day.

Apples—Last week there was not sufficient apples to fill all orders, however the local crop has started and the supply is plentiful.

Apricots—This delicious fruit is past its peak and we are advised to buy our preserving apricots now.

Blueberries—They were a little slow in getting started but are plentiful now and as always—delicious.

Raspberries—Good quality raspberries are practically finished, and cherries have had their day completely.

Cantaloupe—There is ample supply to fill all orders and the quality is good.

Grapes—There are four varieties of grapes in plentiful supply on the market. They are also lower in price than last week.

Watermelon—There is sufficient quantities to cover all requirements, but the price is higher. They are good quality, hard, firm.

Sunkist Oranges—Both large and small sizes are plentiful in oranges.

Pears—Bartlett pears are the news at the moment. They are exceptionally good. It will be another 10 days or two weeks before Okanagan pears arrive.

Peaches—You can load the table with peaches. They are in ample quantity right now for eating, but it will be three weeks before the preserving peaches come to town.

Tomatoes—Tomatoes are scarce this week as it is between season for them. There are some Okanagan ones around and new shipments are expected soon.

Cabbage—Movement on this item during the past while has been quite heavy. They are sound, firm heads, well trimmed and local grown.

Cucumbers—Sufficient quantities are arriving daily from the Okanagan to take care of our requirements. These are top quality, uniform in size and very reasonably priced.

Lettuce—Supplies are ample to take care of the demand. These are solid, firm heads.

Corn on Cob—Supply is limited due to cool weather in Yakima area. However, there is a fairly good supply on hand and a shipment from Chilliwack is expected to start soon.

Green Peas—This item is scarce—quality only fair. Due to long dry spell and warm weather, vines have dried out considerably. Shipment of Washington peas which is expected soon will be better.

Celery—A good quality of celery is on the market sent from Washington. More is expected to arrive from the Okanagan.

Onions—We are at present drawing onions from the Okanagan and Fraser Valley. They are clean and well matured. It will only be a few days before Okanagan onions will be on the market. There are no Spanish onions right now.

That's the news on the produce front.

WHY GROW OLD?

By JOSEPHINE LOWMAN

No Evidence Hair Growth Is Stimulated by Smoking

Q. Does smoking cause hair to grow on the face?"

A. No, not so far as I know. The distribution of hair on the body is dictated by the glandular system.

Q. "I peroxided my hair. Can I do anything to make it return to its natural color? I am so unhappy about it."

A. I am not qualified to advise in matter of hair dying and bleaching. However, I fear you will have to wait for it to grow out.

Q. "Is it natural to have underarm perspiration? I seem to have so much more than my friends. Is there any way to stop it?"

A. Underarm perspiration is natural and everyone has some. However, extreme nervousness and some abnormal physical conditions can cause it. If yours is really extreme see your doctor. Women vary in the amount they have. Use one of the non-perspirants daily. This will help.

Q. "The insides of my legs, above the knee, are very flabby. What do you consider the best exercise for this condition?"

A. This is one of the very best. Lie on the floor on your back with your legs straight and your arms resting on the floor a little away from your body. Palms are on the floor. Lift both legs to a point half way up to a vertical position. Swing the legs apart as far as comfortable. Swing them toward one another and across, the right leg over the left. Again, swing them apart. Swing them together, this time crossing the left leg over the right.

If this exercise is done correctly it can accomplish wonders. Make the swing smooth and rhythmic and keep the knees straight throughout the exercise. Do this a few times and rest. Continue

AS WE LIVE

It Doesn't Pay to Burn The Candle at Both Ends

By ELIZABETH B. HURLOCK, Ph.D.

One of the most serious mistakes many young people make is to do more than their health will permit. The worst thing they do is to stay up late, losing sleep they need. The young boy who wrote the following letter is upset because his parents are interfering with his pleasures:

(Q) "I am 15 years old. I have a problem with my parents about what time I should come home. I work all day, until 9 p.m. Then I have one day a week, staying out late, losing sleep they need. The young boy who wrote the following letter is upset because his parents are interfering with his pleasures:

(A) "How does it happen that a boy of your age has such long work hours? According to the law of almost every state, the number of hours a minor can work is limited. You are working far more than the limit. Are you working for a relative or are you employed by an outsider?"

These long working hours not only overtax your strength for growth—but they also deprive you of the fun you should have during summer vacation. Is it necessary for you to work so long to help support the family? If not, try to change your working hours to about half of what you are now doing.

Naturally you want to fish but, if you work all day and through the evening, the only wise thing to do is to go to bed at once when your work is finished. Otherwise, you will be dangerously tired the next day.

Even on your day off, it is questionable to stay out late. Remember you have a workday ahead and, if you get little rest the night before, you can't expect to do a good job the next day. Your limit should be 9 or 10 p.m. on your day off."

It is hard on you to have no real vacation but, the pleasure you have now may be at the expense of your future health. It's not worth it. Either make adjustments in your working hours or sacrifice your good times for the sake of your health.

For Sylvia Morrow

Mrs. M. A. Morrow entertained at a "trousseau tea" in her Glen Lake home recently to honor her daughter, Sylvia, whose marriage takes place this Saturday. Rooms were decorated with summer flowers and tea table was centred with multi-colored rosebuds.

A pre-nuptial party was held for Miss Morrow and her fiance, Mr. Walter C. Howell, at the home of Mr. and Mrs. George Blogg, Spokane Road.

Miss Morrow was presented with a corsage of red carnations and white phlox. Among the guests were Mr. and Mrs. N. Rhode, Mr. and Mrs. A. Foley, Mr. and Mrs. J. Flatman, Mr. and Mrs. G. S. Johnson, Mr. and Mrs. W. Allen, Mr. and Mrs. A. Bodman, Mrs. E. White, Miss Verna Rhode and Mr. R. Martin.

OF PERSONAL INTEREST

In Honor of Visitor from Nelson

On Wednesday afternoon, Mrs. G. Woodridge entertained at her home on Empress Avenue in honor of Mrs. L. Smith, who is visiting here from Nelson, B.C. Invited guests, all former co-office workers with Mrs. Smith, were Mrs. L. O'Neill, Mrs. A. Weyert, Mrs. J. Cameron, Mrs. I. Leason, Mrs. L. Munro, Mrs. F. Champion, Mrs. K. Cross and the Misses M. Smith and Mary O'Neill.

Anniversary Party

A surprise party was held at the home of Mrs. E. Middleton, Old Luxton Road, to honor Mrs. H. A. Baxter, who celebrated her 50th wedding anniversary recently.

The party was sponsored by Luxton and Happy Valley Women's Institute, of which Mrs. Baxter has been a member for more than 30 years.

A presentation was made by the president, Mrs. J. Flatman, of a gold W.I. pin, bedded in a pot of gold, and a corsage of pink carnations.

Refreshment table was centred with a large cake decorated in white and gold.

Mr. Baxter was unable to attend. They were married in Forest Gate, Essex, Eng., and came to Canada in 1932. After spending a few weeks in Victoria they made their home at Happy Valley.

They have two children, Arthur, who lives at Happy Valley with his wife and two children, and a daughter, Mrs. Nelson Smith, who lives at Duncan with her husband and three children.

Mrs. Baxter is a charter member of the Luxton and Happy Valley Women's Institute.

For Dorothy Keir

Mrs. G. Morrison and Mrs. W. Morrison entertained Wednesday evening at the Wicklow Street home of the latter for Miss Dorothy Keir, August bride-elect. Gifts in a wishing well were presented by Miss Judy Rose and Miss Pamela Morrison. Miss Keir has a corsage of pink rosebuds and her mother, Mrs. E. A. Keir, yellow carnations. The lace-covered refreshment table was centred with a shower-cake and candles in the form of diminutive bride and groom. Floral centrepieces was of carnations and sweetpeas. Guests were Mesdames N. Morgan, J. Furnston, A. Furnston, D. Gibson, W. A. Atherton, D. Pearmain, W. Pearmain, Lodge, J. Mawdsley, V. Hodgson, V. Nunn, Blockley, J. Keir, A. Rose and Baker.

Tennis Enthusiasts at Matches

Thursday evening tennis fans at B.C. tennis championships included Mr. and Mrs. T. Juelberg, Miss Bim Jackson, Mr. and Mrs. Hugh Graham, Mr. and Mrs. Andrew Weir, Lieut. and Mrs. Christopher Pratt and Mrs. Arthur Roberts.

Mrs. Charles Rowell is visiting in the city from Miss Audrey Crossman and Mrs. Ethel Moon were hostesses Monday evening at a miscellaneous shower given at the home of their mother, Mrs. Margaret Crossman, 2611 Aquith Street, in honor of their future sister-in-law, Miss Madeline Marks. A carnation corsage for the bride-elect, and a gift each for her mother and mother of the groom-elect, were presented on arrival. The guests were Mrs. A. Edmonds, Mrs. J. Barnes, Mrs. A. Anderson, Mrs. C. Marks, Mrs. E. Noone, Mrs. J. Murray, Mrs. W. George, Mrs. J. C. Morris, Mrs. E. Olson, Mrs. A. Stewart, Mrs. T. Dickie, Mrs. Dora Crossman, Mrs. W. Quest, Mrs. Mawson, Mrs. J. Smithson and Miss Lorna Forsyth.

St. Aidan's Church Florally Decorated
St. Aidan's Church was the scene of the recent nuptial service which united Nola Beattie Mason, daughter of Mr. and Mrs. Norman Feltham Road, and Albert Joseph Sigowin, son of Mr. and Mrs. Sigowin, Nanaimo. Rev. J. Clerihue officiated.

Standard baskets of roses in the church complemented the bride's floor-length gown of white brocaded taffeta and lace. Her three-quarter length veil misted from a pearl headress and she carried a bouquet of roses and orange blossom.

Marjorie Grace Fletcher, bride-to-be, wore a blue taffeta gown and carried a bouquet of carnations.

Best man was Theodore Leo Sigowin and ushers were Harris and Walter Lachmane.

Following a reception at the home of the bride's parents, the couple motored up-island for their honeymoon.

Late-Day Party Host

Mr. Sherwood B. Marshall will host today at a late-afternoon party in the Queen Anne Heights home of Mrs. M. J. K. Shape, who, with her daughter Anne, is holidaying in England and on the Continent.

The invited guests include Mr. and Mrs. R. M. Burns, Mr. and Mrs. G. Griffiths, Mr. and Mrs. J. Shaw, Mr. and Mrs. L. F. Detweller, Mr. and Mrs. J. C. Stevenson, Mr. and Mrs. E. C. D. Wilson, Mr. and Mrs. W. J. Taaffe, Mr. and Mrs. J. D. W. Blyth, Mr. and Mrs. J. H. Wade, Lieut.-Cmdr. and Mrs. V. G. Pinhorn, Mr. and Mrs. C. T. Foot, Mr. and Mrs. R. Weston, Mr. and Mrs. T. L. Christie, Mr. and Mrs. K. L. Boorman, Mr. and Mrs. G. F. Dunn, Mr. and Mrs. L. M. Horne, Mrs. Maureen Day, Mr. and Mrs. C. J. Holloway, Mr. and Mrs. R. C. Miller, Mr. and Mrs. G. E. Harris, Mr. and Mrs. J. G. McKeachie, Col. D. C. Stephenson, Mr. and Mrs. J. A. Byers, Mr. Ted Smith, Mr. Douglas Pearl, Mr. Gilbert Smith, Mr. J. A. Christie, Mr. John White, Miss Dawn Van Norman, Miss Doreen Rust, Mr. and Mrs. D. C. Kyle, Mr. and Mrs. Alan McFarlane, Mr. and Mrs. R. M. Baker.

Mr. R. W. Thorpe, 256 Wildwood Avenue, entertained Monday evening at a kitchen shower for Miss Hazel Hawkins, who received her useful gifts in a decorated umbrella. Corsages of Taisman roses for the bride-elect and sweet peas in corsage for her mother and mother of the groom-elect were given on arrival. Refreshments were served from a lace-covered table centred with a crystal bowl of snapdragons and mauve scabiosa flanked by lighted candles in matching holders. Mrs. W. Hawkins and Mrs. W. G. Drew presided. Other guests included Mrs. W. G. Thorpe, Mrs. R. J. Crozier Smith, Mrs. Jack Smith, Mrs. N. Rushmore, Mrs. C. Rhode, Mrs. M. Wilkinson, Mrs. C. E. C. Balford, Miss Doreen King and Miss Hazel Mark.

"My father was a mining engineer," she explains, "so I spent much of my childhood travelling from place to place on the prairies. I attended high school in Lethbridge, normal school in Calgary, and taught primary classes in Edmonton prior to my marriage—and I also coached the school basketball team."

"I still like basketball," she ex-

plained, "and I follow other sports. I couldn't help it with three men in the family and Kelowna such a sports-minded city."

Most of her Kelowna life has been spent in Kelowna, where, at the Bennett home, "Brookside," in its seven acres of fruit trees, and flowers, friends gather at any hour of the day or night.

In Kelowna, too, Mrs. Bennett has entered into many phases of women's work including the I.O.D.E., Red Cross, Local Council of Women, the voluntary executive of the Canadian National Institute for the Blind and the C.G.I.T.

She likes to sew and she likes to cook. And she lists reading as one of her major hobbies. "Although I haven't had much time recently for that," she tells you.

If she had her way, all her entertainments would be done in small intimate groups, over the tea-cups, around a pleasant fireside.

"You get to know people so much better in small groups," she says, and then adds "It looks as if I'll have to learn to like larger groups now."

THE DOCTOR SAYS

No Agreement About Hormone Injections

By EDWIN P. JORDAN, M.D.

A correspondent who shall remain anonymous asks for a discussion of the impotent male of 50 years or "younger." This raises a question which is difficult to discuss, although doubtless important in many social aspects such as its relation to divorce as well as in its purely physical sense.

In letters addressed to this column, it is frequently tied with the question as to whether the writer should or should not take injections of male sex hormones.

First, it should be pointed out that psychological factors frequently have as much or more to do with the problem of potency as any change in the activity of

the sex glands or other physical qualities.

Some experts claim that while the activity of the male sex glands does slow up with advancing age, the slowing up is so gradual that one cannot properly speak of a true "change of life" in men.

Others believe that, at least in some men, a decrease in functioning of these glands may come fairly rapidly and produce symptoms which justify speaking of a male change of life. They believe that men go through this period somewhat later than women do—usually between 45 and 55.

Perhaps most men do not have any symptoms at all which can be attributed to decreased functioning of the sex glands. Those who do, however, may (according to those who believe in a rapid change) have one or more of several symptoms.

Some describe a distinct feeling of tension with a sort of inward feeling of discomfort, which is made worse by excitement or fatigue, bad news, arguments or disturbances which would not bother a person ordinarily.

Some men during this time of life may be restless and complain of sleeping poorly. Numbness and tingling of the hands or feet is common. Headaches of various kinds are a frequent complaint.

It is claimed that the memory becomes poorer and the ability to concentrate impaired. A mild feeling of depression also seems to be common.

Dizziness, palpitation of the heart, cold hands and cold feet, slight shortness of breath and sudden flushing of the face, neck and upper part of the chest are also mentioned. Waning of the sexual powers, real or imaginary, is a frequent reason why men of this age consult their physicians.

MAN STUDIES MADE

There have been many studies of the effect of injections of the principal male hormone (testosterone propionate) in men complaining of such symptoms as those mentioned.

Some claim that these injections, when given in proper doses, and frequently, are helpful in relieving many of the symptoms, just as the female sex hormones are helpful in relieving many changes of life symptoms in women.

However, the conservative view is expressed by one writer, who said "sex hormones should not be administered to men and women of climacteric (change of life) age with the idea of stimulating increased sexual potency; if this is the object of treatment, disappointment will result in the great majority of instances."

Winnipeg Civic Strike Averted

Straw Vote of Council Awards Civic Workers Pay-Hour Demands

WINNIPEG, Aug. 8 (CP).—A strike of about 2,500 civic employees was called off Thursday about eight hours before the midnight deadline when aldermen granted employee wage-and-hour demands.

The settlement ended months of negotiations which would have erupted into the first tie-up of city services since a general strike in 1919.

The city's settlement proposal, which granted a 40-hour work week to begin December 31 and a 7½ per cent wage increase, was accepted by the union executive and stewards at 3 p.m. and by a straw vote at an informal meeting of city council about 4:30 p.m.

Officials of the Federation of Civic Employees (C.C.E.) then instructed member employees to go back to work "as usual."

A formal meeting of city council will be held Monday to officially ratify the settlement.

The 40-hour work week was the stumbling block in union-city negotiations. City council Friday voted 8-7 to grant either the wage increase or the shorter working hours, but not both.

The union decided to strike for the 40-hour week after most council members backed the pay increase.

Concession of the 40-hour week was worked out in a special meeting of Civic Election Committee aldermen. Seven of the nine C.C.E. members had opposed granting both wage and hour demands.

With the wage and hour concession, the city also agreed to examine the city wage structure for unfair differentials and to

Wearisome Bronchial NIGHT COUGH

Can't sleep for coughing? Bronchial tubes full of tightly-packed phlegm? Any amount of coughing is liable to dislodge? So tired from your wearisome bronchial cough you can't work properly? Then here's GOOD NEWS! Try Templeton's RAZ-MAH Cough Syrup. It relieves. Stimulates phlegm loosened so it comes away easily. Get RAZ-MAH from your druggist. 65c. \$1.35.

Truman's Place In Democratic Fight Doubtful

WASHINGTON, Aug. 8 (AP).—President Truman indicated today he expects to learn at a strategy huddle next week whether he should swing out on a give-'em-hell tour or take a more restrained role in Governor Adlai Stevenson's campaign for the presidency.

Truman told his press conference the part he will play in the campaign will be discussed Tuesday when Stevenson attends a cabinet meeting.

Although Truman seems ready to get some licks at the Republicans, various factors undoubtedly will be weighed in determining whether he should share the limelight with Stevenson or allow the Illinois governor to take top billing.

Among the conflicting factors are:

1. Truman demonstrated in 1948 that he was a powerhouse vote-getter, but—

2. Stevenson has shown reluctance to be tabbed too closely with the Truman administration and has served notice that he intends to be his own master.

3. Truman has insisted there must be no retreat from his "fair deal" policies if the Democrats are to win, but—

Stevenson has taken pains to soothe the ruffled tempers of southern leaders who resented attempts to write a strong civil rights plank into the party's platform at Chicago. In effect, civil rights legislation would enforce more equality in education and pay for Negroes.

Whatever the decision, Truman has made it plain he is ready to set out on a bare-knuckles stamping tour—or stay in the background as a buck private in the ranks.

In Denver, General Eisenhower's camp was comparatively quiet after the general let it be known he was not going to telegraph his punches by tipping off the Democrats on his campaign itinerary.

The general said that during the war he never told the enemy a month ahead "where I was going to attack" and he intends to keep the Democrats guessing for a while. The idea, he said, is to prevent the Democrats from putting on such rival attractions as county fairs and rallies when he speaks.

Bill Sallaway Dies Suddenly

A native son, William Maurice Sallaway, 2643 Asquith Street, died suddenly Thursday afternoon.

As Victoria and Island representative for Christie, Brown & Co. Ltd. of Toronto, for many years, Mr. Sallaway was well known in the retail and wholesale business world.

He is survived by his wife, Lavina; three brothers, Harry of Victoria, Tom of Cowichan Lake, George of Santa Barbara, Calif., and three sisters, Mrs. W. Hillier of Salinas, Calif., Mrs. C. A. Grimbide and Mrs. V. Lawson, both of Riverside, Calif.

Funeral services will be held Saturday at 12:15 from McCall's, followed by cremation.

Complains of Grit

W. Findell, 623 Manchester Road, in the mill district, complained to the city Thursday that his freshly painted house is covered with "black, sooty grit." He asked the city to take action.

A Letter From Bruce

Dear Gang—

Well, here I am in dear old London. I saw a slogan today, which is like ours. It was a clothing store, "From Weaver to Weaver," which proves that English is not so dumb. London is simply marvelous. Yesterday we saw the changing of the Palace Guards, Westminster Abbey, Whitehall, and No. 10 Downing Street. We also were scared stiff at the Waxworks. Today we go to the London Zoo. We have a meet here soon, the British Empire vs. U.S.A. I am going over to Paris for a few days after that. London is the biggest place I have ever seen, and there is more character in one block of buildings than it is possible to imagine. They do not seem as hard here as they have been, and we don't seem to have any trouble getting lots of wonderful things to eat. We are learning our way around quickly, & toss off words like Charing Cross, Covent Garden, Knightsbridge & Hackney Hay, as if we'd been here most of our lives. Still have trouble dodging the left-hand traffic. The people here haven't forgotten the boys from war time, & when we wear our Maple Leaf, it is an "old" one. We are now at B.C. House, which is very nice, and a great help to any visitors from B.C. They helped us to get tickets to Mary Martin in "South Pacific" at the Drury Lane Theatre. Canada House has been very helpful, giving us the right steers, Cherrio, & I'll be home in time for you to start your vacation on the 15th.

Your London correspondent,
BRUCE.

H.J.S. LEVY CUT \$3, CO-INSURANCE AT \$1

FINAL ★ ★ ★ ★ BULLETINS

'Political Trickery' Says Winch

VANCOUVER, Aug. 8 (CP)—Harold Winch, C.C.F. leader and member of the Hospital Insurance Inquiry Board, today termed Social Credit changes in the service "straight political trickery."

Asked to comment on the changes in the service announced by Premier W. A. C. Bennett which eliminate co-insurance, reduce premiums and charge \$1 a day for every day in hospital, Mr. Winch said:

"Social Credit promised to abolish co-insurance. But in imposing \$1 daily charge, they have not abolished co-insurance; they have only shifted the financial burden onto the people who can least afford it."

B.C. Indians Charged With Murder

MT. VERNON, Wash., Aug. 8 (BUP)—Three Indians, believed to be transient workers from British Columbia, were arrested today for the murder of Peter Johnson, 51-year-old night watchman at a Conway Pinery in Mt. Vernon, Washington.

Three Indians, Norman Diablo, 26; Howard Thomas, 20, and Gordon Thomas, 32, were booked for the murder by Skagit County Sheriff Harold Hinshaw. Hinshaw said Diablo wielded the knife which killed Johnson.

Canada Loses Davis Cup Singles

MONTREAL, Aug. 8 (AP)—Vic Sexias of Philadelphia defeated Lorne Main, 6-2, 3-6, 6-4, today to give the United States both opening singles matches in the final North American zone Davis Cup tennis tie with Canada.

Herb Flam, Beverly Hills, Calif., won the opening match from Henri Rochon, 6-2, 8-6, 6-2.
